

After some months of silence, we are please to announce the release of jIO version 3.0.0.

You can download it at [http://git.erp5.org/gitweb/jio.git/blob\\_plain/HEAD:/dist/jio-v3.0.0.min.js?js=1](http://git.erp5.org/gitweb/jio.git/blob_plain/HEAD:/dist/jio-v3.0.0.min.js?js=1)

Compare to previous version, this version simplifies the usage in the browser (only 2 files to include in the HTML), as all released storage are directly included.

The API has been simplified to ease developper work and allow to quickly write offline first HTML5 application.

Happy hacking!
